

INSTRUCTION FOR CARD GRADUATION HAT (25GRAD)

This black card graduation hat is supplied flat unassembled. Each hat consists of three parts: Part A, Part B and Part C. Part A and Part B will make the rim of the hat and Part C the top.

Step 1:

Fold the 5 small tabs (red circled on above image) on Part A and Part B.

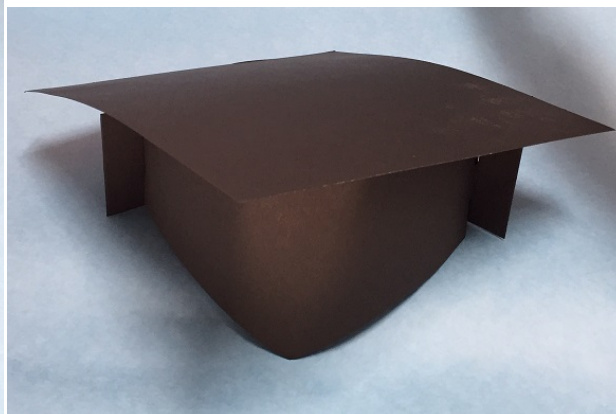

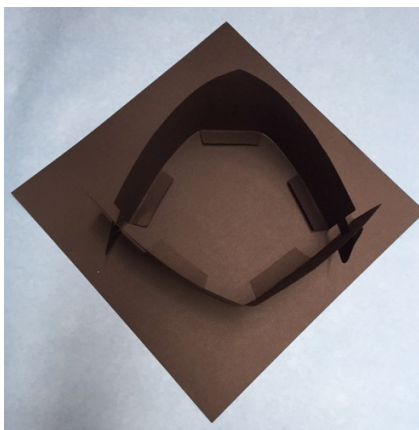

Step 2:

Insert the two arrows on the both ends of Part A to the slots on both ends of Part B. There are two slots on each end of Part B. Choose the slot to fit the size of your head. When inserting the arrows in, tilt the arrow and let one side of the arrow go through the slot first then carefully insert the whole arrow in. Make sure the tabs of Part A and Part B are on the same side after Part A has slotted into Part B. Now the rim of the hat is made.

Step 3:

Apply small amount of glue or double-sided tape on the 5 tabs. Lay Part C on the table, carefully stretch the rim (Part A + Part B) and stick the five tabs to Part C. Leave until glue dries. Then turn around and wear to your head. The Graduation Hat is done.

Step 4 (Optional):

If you like, attach a tassel to the hat. Fix a paper fastener in the middle of the top of hat. Attach a small section of metallic yarn to the paper fastener. Then attach a tassel to the yarn.

Note: Paper fastener, metallic yarn and tassel are not included in the graduation hat pack. They are available for purchase separately. Please visit www.camartech.com.au to order.
