

How to use Our Stickers

Our stickers aren't stars, funny faces or 'Good Work' wombats! Our stickers are based on real people! They promote teachable moments. They beg the question, 'Who is?' This is how these stickers can be used, not only as merit stickers and project starters, but more importantly, **as teachable moments.**

Ways to use our stickers in the art room

- Merit Stickers- use these stickers as teachable moments whilst at the same time, rewarding your students
- Art making activities- resin activities, card making, bookmarks, collage
- Assignment starters- use these stickers as a motivator to start assignments around these artists
- Art Certificates- print your own art certificates and make them extra special by adding an artist sticker to the certificate (certificates can be found and printed from Bodil's website www.bodil.com.au)

Ways to use our stickers in the STEAM room

- Merit Stickers- use these stickers as teachable moments whilst at the same time, rewarding your students
- Assignment starters- use these stickers as a motivator to start assignments around these various people from STEAM industries
- STEAM Certificates- print your own science certificates and make them extra special by adding a STEAM sticker to the certificate (certificates can be found and printed from Bodil's website www.bodil.com.au)

Ways to use our stickers in different classrooms:

- IT: Grace Hopper, Katherine Johnson, Elon Musk and even Leonardo da Vinci have all had a significant impact in the area of Information Technology. Use these stickers for rewarding students or as project starters.
- Environmental Studies- Leonardo da Vinci first conceptualised the use of solar power, Elon Musk is now leading the way in this field, along with many of his other "earth friendly" inventions. Use these stickers for rewarding students or as project starters.
- NASA projects- Katherine Johnson was a mathematician who worked for NASA. Use her sticker on NASA projects and as a reward when studying NASA.

Ways to use our stickers for whole school events:

- Science Week- Our STEAM pack includes scientists from many different fields and is a great reward to use during Science Week

- Space week- Katherine Johnson, Elon Musk and Albert Einstein have all worked in the area of 'space'. Use their stickers during Space Week for rewards and project starters.
- RUOK Day- both Frida Kahlo and Yayoi Kusama struggled with their mental health- in fact Yayoi Kusama currently resides as a patient in a mental health home in Japan. Use these iconic women as symbols of hope and achievement in the area of mental health.
- Book Week- Use these stickers to decorate and create bookmarks as part of your book week activities.
- Crazy Hair Day- Use our Yayoi Kusama sticker to give to students on crazy hair day. No one loves a fun hairdo like Yayoi Kusama does!
- School Art Exhibition- Hand out our Artist Stickers at the door for all visiting guests, or use a whole artist pack as part of the prizes awarded to your art students.

Ways to use our stickers at your school fetes:

- Badge making- our stickers have a 4cm diameter and look great pressed into badges to sell at school fetes.
- Art projects- bookmarks, cardmaking and resin jewellery all look great when made in conjunction with our stickers. On-sell student art to raise money for your school community.
